

**Sea Kayak Reloncavi Fjord
1 day**

Row for 5 to 6 spectacular hours of sea kayak in the first stretch of the Chilean Patagonia; we will sail in the home of sea lions and Austral dolphins and as a backdrop we will have the Andes Mountains and its imposing austral summits.

We will drive to the first stretch of the austral road which covers the Reloncavi Fjord. We will meet little fishermen towns and enjoy beautiful sights of the Osorno, Calbuco and Yate Volcanoes, without a doubt an attractive landscape that opens its road between the Andes Mountain and the Pacific Ocean. Our adventure on the sea starts in the town of Puelo...

When you reserve the trip, we give you a list of everything you will need to be ready for your adventure

Details of the trip

Once in the town of Puelo we will organize the equipment while we drink a lovely hot chocolate. Once we enter the lake with our kayaks we will have a conversation about safety, rescue and row techniques. Then we will start paddling for about 4 or 5 hours across the Reloncavi Estuary towards the town of Cochamó, with amazing views to the Yate Volcano and the imposing Andes Mountain. We can observe the lifestyle of the local people and if we are lucky we will meet sea lions, dolphins and a lot of birds. During our paddling day we will have time to take pictures, have a nice lunch and answer all your questions about the place.
